MESSAGE FROM INTERNATIONAL MUSIC COUNCIL OF UNESCO

The word 'culture' was completely absent from the 'Millennium Development Goals' adopted by the UN in 2000.

No one doubts great progress has been achieved. However, time and again, we have seen development initiatives hindered or prove unsustainable due to a lack of recognition and respect for local cultures. The IMC and its partner global cultural networks strongly believe in the need for a human-rights based approach to development and are calling on world leaders to recognize that development is in itself an act of culture that impacts on the culture of its intended beneficiaries.

Putting people first is recognizing the unique transformative power of culture.

Development will have been truly achieved when all citizens can participate in and enjoy the music, dance, literature, visual representations, heritage and all other expressions of the arts and culture of their own community and beyond.

Sign the Declaration for the inclusion of culture in the UN Sustainable Development Goals Post-2015.

And spread the word. How? You can download communication tools (banners for website, texts for Facebook posts and tweets, logos for just everywhere etc.) [here](http://www.culture2015goal.net). Make sure you put the link www.culture2015goal.net. Your signature, your voice and your dissemination count!

Le mot culture était complètement absent des Objectifs du Millénaire pour le développement adopté par les Nations unies en 2000. Il ne fait aucun doute que des progrès ont été accomplis. Cependant, encore et toujours, on constate que des projets de développement s'enlisent ou n'ont pas d'effets durables en raison d'un manque de reconnaissance ou de respect pour la culture locale. Le CIM et des réseaux culturels partenaires croyons fermement en une approche du développement basée sur les droits de la personne et en appelons aux dirigeants du monde entier pour qu'ils reconnaissent que le développement est en soi un acte culturel qui a un impact sur la culture des populations ciblées.

Mettre la priorité sur le respect de la personne, c'est reconnaître le pouvoir transformateur unique à la culture.

Le développement sera vraiment atteint lorsque tous les citoyens pourront prendre part et apprécier la musique, la danse, la littérature, les représentations visuelles, le patrimoine et toutes les autres expressions des arts et de la culture de leur propre communauté et au-delà.

Signez la Déclaration pour l'inclusion de la culture dans les objectifs du développement durable pour l'après 2015.

Et passez le mot. Comment ? Vous pouvez télécharger des éléments de communication (bannières pour sites web, textes pour Facebook et tweets, logos à placer tout simplement partout etc.) [ici](http://www.culture2015goal.net). Veuillez vous assurer que vous utilisez bien le lien www.culture2015goal.net dans votre communication.

Votre signature, votre voix et votre diffusion comptent !

La palabra cultura estaba totalmente ausente de los Objetivos del Milenario para el Desarrollo adoptados por las Naciones Unidas en el 2000. No cabe duda de que se han logrado avances. Sin embargo, ahora y siempre, se consta que varios proyectos de desarrollo quedan atascados y no tienen impactos durables por falta de reconocimiento o de respeto para la cultura local. El CIM y sus redes culturales globales socios creemos firmemente en un enfoque del desarrollo basado en los derechos humanos y pedimos que los grandes dirigentes internacionales reconozcan que el desarrollo es en sí un acto cultural que impacta la cultura de aquellos y aquellas a quien va dirigido.

Priorizar el respeto de los individuos, es reconocer el poder transformador único de la cultura.

El desarrollo se habrá realmente alcanzado solo cuando cada ciudadano pueda tomar parte y disfrutar la música, la danza, la literatura, las representaciones visuales, el patrimonio y todas otras expresiones de las artes y de la cultura de su propia comunidad y más allá.

Firma la Declaración que promueve la inclusión de la cultura en los Objetivos de Desarrollo Sostenible post-2015. ¡Y pase la palabra! ¿Cómo hacer? Pueden bajarse todos los elementos de la campaña (banners, textos para Facebook y twitter, logo para placer en todas partes etc.) desde [aquí](http://www.culture2015goal.net).

Rosanna Scalfi, the student and wife of Venetian nobleman Benedetto Marcello, composed 12 cantatas for her own performances in private circles. At the Biblioteca Santa Cecilia in Rome, they long escaped notice because catalogued under her husband's name. While written within the conventions of pastoral poetry and *arie da capo*, the cantatas reveal an individual and passionate voice. Scholars agree that Rosanna was the true composer of these highly original pieces. The premiere edition offers historical background and continuo realization by **Deborah Hayes**, textual editing and performance advice by **John Glenn Paton emeriti**, University of Colorado at Boulder.

ALESSANDRA BELLONI - REMO ARTIST – USA - announces New Video Diva Shaman Trance-forming Lives You can also be part of this powerful experience if you join her for the **14 Annual Healing Dance & Percussion Workshop from Southern Italy** Rhythm is the Cure will take place from August 18 to 25, 2014 A Renaissance Villa in the magical hills of Tuscany, Italy La Chiara di Prumiano, a beautiful 17th century villa set high in Tuscany's Chianti Classico vineyards, hosts our group of about twenty-five women and men who come from all over the world. As guest, you'll stay in a spacious and comfortable room that boasts windows with shutters that open onto the surrounding shimmering olive groves. pictures and information available here: <http://www.prumiano.it>

Rhythm is the Cure is a 7-day intensive healing workshop featuring Southern Italian ritual dances used as music and dance therapy for centuries throughout the Mediterranean. Participants will learn the unique style of tambourine playing and the ancient healing trance dance of the tarantella, used to cure the mythical bite of the tarantula. The workshop focuses on releasing blockages of energies, and break the imaginary "spiderweb" of the subconscious mind. A film about this powerful workshop will be soon available. Taught by Internationally renowned percussionist/singer Alessandra Belloni the objectives of the workshop are:

--To introduce the participants to an ancient form of music and dance therapy used to cure the mythical bite of the tarantula and to come to understand the healing and stress-relieving effect of these rhythms and dances. -To learn the history of this powerful tambourine style which dates back to the rites of the Mother Earth Goddess Cybele, now worshiped as the Black Madonna bringing women back in touch with their drumming tradition. -To make the participants feel part of community-healing rituals as they use their bodies in movements that help open the energy points and stay grounded. -To release blockages of emotional and sensual energies through the Pizzica dance of liberation, therefore expelling any feelings of depression and repression.

Students will learn the following ritual dances and rhythms: TAMMORRIATA - THE PIZZICA TARANTATA -. RITMO E DANZA DI SAN ROCCO (SPINNING DANCE) - TARANTELLA ALLA MONTEMARANESE - An excursion will also take place to the medieval walled city of Siena where we'll visit the Black Madonna in the Duomo, followed by a pilgrimage to one of Tuscany's little-known treasures, the Abbey of San Galgano, a spectacular ruined Cistercian gothic abbey, where the participants will experience a special drumming ceremony. At sunset we will drum while walking up the hill to the extraordinary Hermitage Montesiepi, which has another powerful Black Madonna. Daily Yoga Warm-Up with Jillian Guinta Jillian will be leading Yoga, meditation and stretching before each drumming and dance class. During the week in Tuscany, each morning before Alessandra's drumming and dancing teachings, Gaia, owner of La Chiara di Prumiano, will lead special puppet-making workshops.

Rhythm is the Cure is a transformative week filled with intensive study, play, and joy. It's a time shared with new friends you'll cherish for years to come all while you are learning the thrilling powers of the Tarantellas of Southern Italy. You'll draw energy from the earth and sky of Tuscany, be delighted by the culinary delights and hospitality of La Chiara di Prumiano, and be inspired by the artistry and healing energy. And when you're not enjoying your lessons in the shaded outdoor studio, you might take a dip in the refreshing swimming pool. The week ends with a final fire ceremony and a party under the stars.

The fee does not include airfare or local transportation. Total fee for workshop, lodging and meals is approximately \$1,300 (triple), \$1,400 (double), or \$1500 (single) Any questions? Contact us at: ABelloni@aol.com or Tuscanyworkshop@aol.com

WOMEN IN MUSIC: BARRIERS, OBSTACLES AND GATEKEEPERS BLOCKING THE RISE OF WOMEN COMPOSERS

Women as creators of music are under-represented in Academia, in cultural institutions, in the programming of concerts, events, as authors of film scores or for television on the boards of music institutions. Why? The persistence of gender barriers and bias undermine the visibility and work possibilities for women composers in favour of a male-centred system. We invite papers exploring the mechanisms which obstruct gender equality in music, in all genres, from classical music to hip hop, by inviting composers, academics, researchers, students and musicians to send contributions to the Foundation for successive online publication. Proposals should focus on: the role of women composers in the European context (i.e.: the impact of the crisis on the music industry, differences among EU member states, etc...); the obstacles encountered by women composers (i.e.: discrimination, harassment, coercion, difficulty in access to decisional making positions, conciliation between family and work, copyright, etc...); equal opportunities and gender mainstreaming in the music field. Those interested should send us an abstract of 50 lines plus a brief curriculum (10 lines) to: forum@donneinmusica.org. Works chosen should be of no more than 7.000 words.

INVITO A PRESENTARE PROPOSTE

DONNE IN MUSICA: BARRIERE, OSTACOLI E GATEKEEPERS CHE OSTACOLANO LA CRESCITA DELLE COMPOSITTRICI

Le donne che creano musica sono sottorappresentate nelle accademie, nelle istituzioni culturali, nelle programmazioni dei concerti, eventi, come autrici di colonne sonore per il cinema o la televisione nei CdA delle istituzioni musicali. Perché? Il persistere di barriere e pregiudizi di genere mina la visibilità e le opportunità lavorative delle composittrici a favore di un sistema dominate maschile. Con questo invito a presentare proposte intendiamo raccogliere documenti sui meccanismi che ostacolano l'eguaglianza di genere in campo musicale, in tutti i generi, dalla musica classica all'hip hop, invitando compositori, accademici, ricercatori, studenti e musicisti ad inviare i propri contributi alla Fondazione per una successiva pubblicazione online. Le proposte dovranno concentrarsi su: il ruolo delle composittrici nel contesto europeo (es.: l'impatto della crisi sull'industria musicale, differenze tra gli Stati membri, ecc...); gli ostacoli incontrati dalle composittrici (es.: discriminazioni, abusi, coercizione, difficoltà nell'accesso alle posizioni decisonali, conciliazione famiglia-lavoro, diritti d'autore, ecc...); pari opportunità e gender mainstreaming in ambito musicale. Tutti gli interessati dovranno inviare un abstract di 50 righe e un breve curriculum (10 righe) a: forum@donneinmusica.org. I lavori selezionati non dovranno superare le 7.000 parole.

Donne in Musica is the only FULL TIME organisation in the world working to promote women composers and creators of music in all music fields. We advocate on behalf of women composers and this year give hospitality to *resident composers and musicologists* from **Turkey, Italy, Cyprus, Finland, the UK, Germany, France.....**The **Resident Scheme** is one of the most vital parts of our work and we look forward to increasing the number of women we for whom we offer hospitality (an apartment for duration of stay, contribution for food costs, health insurance etc – inclusion in research projects for musicologists, the writing of a new work for public presentation for composers).

We invite donations to sustain our work – next year (2015) we would like to extend the invitations to women coming from the Americas, Asia and from the Arab World. Donations may be made directly to the Foundation's Bank Account – **CARIPARMA IBAN .IT77D062300320000057059885 .BIC CRPPIT2P544** Each donation is acknowledged with a receipt for tax deductions in own country.

No country is without women making music.

*Humanity would be poorer without our contribution.
When children are born, mothers sing!*

ليس هناك دولة تساوقها لا يمارسن الموسيقى
ستكون الإنسانية أشد فقرا بدون مشاركة النساء
عندما يولد الأطفال ترنم الأمهات

**Non c'è paese senza musica creata dalle donne.
L'umanità sarebbe più povera senza il nostro contributo.
Quando nascono i bambini, le madri cantano!**

**Il n'existe pas de Pays sans musique créée par les femmes.

Quand les enfants naissent, les mères chantent !**

**Нет страны , где бы женщины не создавали бы музыку.

Когда рождаются дети, матери поют!**

**Não existe país que não tenha mulheres fazendo música.
